

Changes to MCA education and training requirements for obtaining a UK Certificate of Competency.

Notice to all MCA-Approved Nautical Colleges, Ship Owners, Masters, Officers, Ratings and all those concerned with maritime training.

*This MIN must be read with MSN 1856, MSN 1857 and MIN 511.
This MIN expires 20 October 2021*

Summary

This MIN summarises the changes to current MCA education and training requirements for obtaining a UK Certificate of Competency.

1. Introduction

1.1 After reviewing the current processes and procedures for obtaining a UK Certificate of Competency the MCA has decided that the following changes should be made:

- New requirements to be met by Deck cadets applying through the 'Overseas Collaborative Programme' prior to the issue of a Notice of Eligibility (NOE) - **section 2.1**;
- The completion of an education programme and reduced seagoing service within an approved programme timescale (for Deck and Engineering cadets)– **section 2.2**;
- The removal of the 7 year time restriction on using your MCA-approved academic qualification to obtain a UK CoC - **section 3**;
- Clarification that there is no requirement to hold an NOE prior to undertaking an MCA-approved Scottish Qualifications Authority (SQA) or International Association of Maritime Institutions (IAMI) written examination - **section 4**;
- New requirements for non-UK CoCs being converted to a UK CoC prior to the issue of a Notice of Eligibility (NOE) - **section 5**;
- Standardisation of the nautical college letter for Merchant Navy Training Board (MNTB) cadets – **section 6**

A college letter template that must be completed for every Deck Cadet on the 'Overseas Collaborative Programme' (1+1 route) is available in Annex A.

2. New Requirements for 'Overseas Collaborative Programme' (1+1)

2.1 Deck cadets only

From 1st July 2017, if you are following an MCA-approved 'overseas collaborative programme' (1+1 route) overseen by a UK nautical college, you must meet the following requirements **prior to the issue of your OOW II/1 NOE**:

- Completes 15 months' seagoing service¹;
- Submit your completed workbook with your Training Record Book (TRB);
- Obtain a letter from your UK-approved nautical college confirming your workbook and TRB have been checked and approved (see annex A for letter template);
- Pass the SQA OOW written examinations at an approved SQA Centre in the following subjects:
 - Navigation;
 - Stability and Operations.

2.2 Deck and Engineering Cadets – The Completion of an Education Programme and Reduced Seagoing Service within an Approved Timescale

2.2.1 To be eligible for your reduced seagoing service requirement you must obtain your academic qualification (Higher National Certificate or Higher National Diploma) and complete your seagoing service within 4 years of enrolling² on your course. If you do not complete these requirements you will no longer be eligible for this programme and you will need to meet the "Experienced Seafarer" seagoing service requirements:

- For Deck candidates this is 36 months as per section 3.2 of MSN 1856;
- For Engineering candidates this is 36 months' combined seagoing service and workshop skills training, as per section 3.3.4 of MSN 1857 **or** follow the alternative route detailed in MIN 511.

2.2.2 If you are on an Engineering Bachelor Degree course you must complete your seagoing service and academic qualification within 5 years of enrolling on your course.

3. Use of HNC/HND or Foundation Degrees Towards the Issue of a UK CoC

There is no longer a time restriction on the use of Higher National Certificate (HNC), Higher National Diploma (HND), Scottish Professional Diploma (SPD) or Foundation Degrees towards obtaining a UK CoC. Provided that you have reached the standard as detailed in applicable MSN; section 11 of MSN 1856 (Deck) or section 7 of MSN 1857 (Engineering), your approved qualification can be used towards the applicable CoC indefinitely.

4. IAMI and SQA Examinations

There is no requirement to hold an NOE prior to attending any of the following MCA approved examinations:

- SQA OOW written examinations for:
 - Navigation;

¹ Seagoing service must meet the requirements set out in MSN 1856.

² The date of enrolment will be indicated on the college letter that confirms your attendance on the programme.

- Stability and Operations.
- SQA Chief Mate/Master's written examinations for:
 - Navigation;
 - Stability and Structure.
- IAMI EOOW written examinations for:
 - Engineering Knowledge sections:
 - General;
 - Motor **and/or** Steam;
 - Control Engineering.
- SQA Second Engineer, Chief Engineer or Management level³ written examinations for:
 - Engineering Knowledge sections:
 - General;
 - Motor **and/or** steam.

5. Requirements for Converting a non-UK CoC to a UK CoC

5.1 The general requirements are detailed in section 14 of MSN 1856 and section 9.3 of MSN 1857. If you hold a CoC from a country who we do not issue a Certificate of Equivalent Competency (CEC) against you must contact the MCA at exams@mcga.gov.uk prior to starting your studies. For a list of those countries please go to www.gov.uk and search "CEC" or [Click Here](#).

5.2 If you hold a CoC from a CEC Country once you have been issued with a Notice of Eligibility you will need to complete:

For a UK Chief Mate or Master UK CoC you must:

- Successfully complete an approved education and training programme meeting the standards of competency specified in section A-II/2 of the STCW Code as listed in section 11 of MSN 1856. This will be the HND standard;
- Pass the SQA Chief Mate/Masters written examinations at an approved SQA centre in the following subjects:
 - Navigation;
 - Stability and Structure;
- Hold the applicable ancillary and technical training listed on your NOE;
- Pass the applicable oral examination.

³ The Second and Chief Engineer 'Engineering Knowledge' examinations will be combined to form one management level 'Engineering Knowledge' examination. If you pass the management examination prior to obtaining your Second Engineer Certificate of Competency you will not need to repeat it to gain a Chief Engineer Certificate of Competency.

For a Second Engineer or Chief Engineer UK CoC you must:

- Successfully complete an approved education and training programme, meeting the standards of competency specified in section A-III/2 of the STCW Code, as listed in section 7 of MSN 1857;
- Pass the SQA Management level written examinations for:
 - Engineering Knowledge sections:
 - General;
 - Motor **and/or** Steam;
- Hold the applicable ancillary and technical training listed on your NOE;
- Pass the applicable oral examination.

6. College Letter Templates for UK Cadets

To ensure consistency and to clarify SQA and IAMI written examination exemptions, we have devised a college letter template. All nautical colleges must submit letters as per the example template in Annex B for MNTB Deck cadets and Annex C for MNTB Engineering cadets. The issue of the letter in the required format must be incorporated into the college Quality Management Procedures. This will be checked during audits of the college by the MCA.
