

Prototype Tests for Life-Saving Appliance

Amended Guidance

Guidance for the Approval and Type Approval of Materials and Equipment for Marine Use

Reason for Amendment

Resolution MSC.81(70) referred to in SOLAS III/Reg.4 which stipulates requirements for the testing method and the criteria of prototype tests for life-saving appliances was amended by Resolution MSC.226(82) in IMO MSC82 held at the end of 2006.

This amendment provides the prototype tests for life-saving appliances based on Resolution MSC.226(82) and MSC.81(70).

Outline of Amendment

The testing method and the criteria of prototype tests for life-saving appliances has been amended according to MSC.226(82) and MSC.81(70).
