

## **Firms Engaged in Performance Tests of VDRs and S-VDRs**

### **Amended Rules**

Rules for the Approval of Manufacturers and Service Suppliers

### **Reason for Amendment**

In conjunction with revisions made to IACS UR Z17, our Rules regarding the approval of manufactures and service suppliers were revised for harmonization purposes. However, because the revision of our Rules made the operators and supervisors who actually performed the work, instead of the firm itself, the main focus of the requirements of IACS UR Z17, a gap in interpretation between our Rules and IACS UR Z17 was created.

Therefore, the relevant requirements of our Rules have been amended in order to eliminate any differences with IACS UR Z17.

### **Outline of Amendment**

The application targets of requirements regarding qualifications, etc. needed for carrying out the performance tests are amended to apply to firms.
