

Thickness Measurement for Oil Tankers and Ships Carrying Dangerous Chemicals in Bulk

Amended Rules

Rules for the Survey and Construction of Steel Ships Part B

Reason for Amendment

The requirements regarding thickness measurements for oil tankers and ships carrying dangerous chemicals in bulk during periodical surveys are based on IACS unified requirements (UR) Z10.1, Z10.3 and Z10.4.

However, for some requirements, the expression was different from these URs.

Accordingly, relevant requirements were amended so that their expressions match the URs.

Outline of Amendment

Amended the expression of the requirements regarding thickness measurements to match IACS UR Z10.1, Z10.3 and Z10.4.

Amended Requirements

Rules for the Survey and Construction of Steel Ships
