

Drum Brake Tests of Mooring Winches

Amended Rules

Rules for the Survey and Construction of Steel Ships Part D

Reason for Amendment

The requirements for drum brake tests of mooring winches specified in 16.3, Part D of the Rules for the Survey and Construction of Steel Ships have never been fundamentally reviewed over the years and remain unchanged since they were added to the Rules in 1984.

Accordingly, relevant requirements for drum brake tests of mooring winches were amended in consideration of their actual usage over the years. This is being done as part of a comprehensive review of the ClassNK Rules.

Outline of Amendment

Amended requirements for the operating condition of drum brake tests of mooring winches.

Amended Requirements

Rules for the Survey and Construction of Steel Ships
Part D: 16.3.2
