To whom it may concern

As previously informed in ClassNK Technical Information No. TEC-1085, No. TEC-1086 and, No. TEC-1113, Ballast Water Management Convention (Hereinafter referred to "the Convention") will enter into force on 8 September 2017. This is to inform you that the implementation deadline for Ballast Water Management System has been changed at MEPC71.

### Table 1 The implementation deadline for BWMS, according to MEPC 71

In cases where vessels for which the keel are laid before 8 September 2017 and have IOPP Certificate do not carry out IOPP renewal survey (IOPP initial survey carried out at delivery is not regarded as the renewal survey) before 8 September 2017, the vessels are ③ of the above table 1.

(To be continued)
The approved Ballast Water Management Plan and the Certificate is required to ships applied with 
only Regulation D-1 (ballast water exchange standard) as well as ships applied with Regulation D-2 
(ballast water performance standard) by the date of entry into force of the Convention. 
Since, it is expected that a lot of survey application for the Convention will be submitted just before 
the date of entry into force, please apply the initial survey for issuance of the Certificate at the earliest 
opportunity, but not later than 8 September 2017 in cases where ships do not have the Certificate.

For approval plans, documents and the initial survey, please refer to ClassNK Technical Information 
No. TEC-1086.
